Tips for parents and carers

Routines

There are lots of routines at school that your child will need to get used to:

It will help if your child is used to a routine at home. Your routines may also have to change to fit in with school.

Taking off and hanging up coats

Sitting in a circle with the teacher

Playing at different activities

Going outside to play

Sitting down for a snack

Listening to a story

Going to the toilet and washing hands

Eating a meal at the table

Singing together

Putting on coats to go home

As well as new routines, your child will need to get used to being more independent.

Before school...

Waking up

You will need to get up in plenty of time to prepare for school.

Getting dressed

Give your child time to practise getting themselves dressed – doing up buttons or zips. They particularly need to practise putting on coats and shoes.

Eating breakfast

Your child will need a healthy breakfast to keep them going through the school day, for instance porridge, fruit, or cereal with no added sugar.

After school...

Playing together

Talking with your child about their day at school, playing and making things together will all help them learn better at school.

Sitting at table and feeding themselves

Even if you don't sit at the table to eat, they will at school. It's useful for them to practise this. They also need to use a knife, fork and spoon.

Washing and brushing teeth

It's great if children can learn to wash themselves—they'll need to wash their hands and face at school. Brushing teeth is very important for their health!

Charts can be useful to reward children and help them get into their routines

Going to bed

Children will get very tired after a busy day at school, and will need 12 hours' sleep a night.

Tick off what your child can do already, and think about what they might need help with over the next few months.

Does your child:

Sit at a table and feed themselves?

Manage without a dummy?

Dress themselves and put their coat and shoes on and off?

Use the toilet?

Mix well with other children?

Have a regular bedtime routine and get to bed by 7 or 8?

Brush their teeth regularly and eat healthy food?

Go outside regularly and get exercise?
